Promotion of CSPO can be difficult due to difficulties encountered by suppliers in obtaining RSPO SCC, or to customer demand for lower-price products (especially in China and South East Asia).

The EU Deforestation Regulation (EUDR), which does not allow Mass Balance CoC for lack of traceability, prevents us to promote MB CSPO to clients in Europe. Our suppliers are still far from being able to properly address the situation.

We are in constant discussion and hold regular meetings with our partners to develop more sustainable palm-based material sourcing. We regularly share with them the latest news on CSPO-related topics and try to assist them as much as possible in the transition from uncertified to RSPO-certified materials.

- Engagement with business partners or consumers on the use of CSPO
