### 3. TimeBound Plan

**3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?**

2016

**3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?**

2017

**3.2.1 If the previous target year has not been met, please explain why.**

Although, we achieved our first supply chain certification in MB oils in March 2016, we have only been buying palm oils from RSPO members since 2014. This practice we will continue in the future as well.

**3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.**

2030

**3.3.1 If the previous target year has not been met, please explain why.**

The expectation of achieving 100% RSPO certification of all supply chains entirely depends upon our customers requirement, for whom we buy the oils.

If the customer wants a specific oil i.e. Segregated or IP, only then will we pursue the relevant certification. Also to note here, is the product availability and the high premiums associated with such oils as you move up the RSPO certification supply chain as was witnessed during the Indonesian oils export ban. Very high premiums and product un-availability may dissuade customers from getting oils like SG, IP etc.

**3.4 Year expected to only source RSPO-certified palm oil and oil palm products.**

2030

**3.4.1 If target has not been met, please explain why.**

Same as PT.3.3.1

**3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why**

We sell primarily in Pakistan.
