3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?

2022

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2035

3.2.1 If the previous target year has not been met, please explain why.

Since certified product operations are currently carried out only to cover the demand for sales and quotations of certified products, the need for purchases is still low.
After structuring the company's client and supplier portfolio, which is still growing rapidly, we will begin to work on a 10-year plan to make the entire chain certified, regardless of whether the sale is certified or not.

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2026

3.3.1 If the previous target year has not been met, please explain why.

The industrial facility certification deadline has been set for 2026 to meet the requirements of new multinational clients entering the portfolio.

3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2035

3.4.1 If target has not been met, please explain why.

The target was changed due to the company's accelerated growth, making it necessary to restructure the 10-year plan to make the entire chain certified, regardless of whether the sale will be certified or not.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Does not apply.
