Grower

1. Operational Profile

1.1 Please state your company's main activities as a palm oil grower:

- ☐ Oil palm grower without palm oil mill
- ☐ Oil palm grower with palm oil mill
- ☐ Oil palm grower with palm oil mill and palm kernel crushing plant
- ☒ Independent palm oil mill
- ☐ Smallholder Group Manager

2. Operations and Certification Progress

Information in Section 2.0 - Operations and Certification Progress - is a mandatory declaration in your ACOP. This includes hectare data, to enable the RSPO to accurately calculate certification of individual members, sectors and RSPO members as a whole. ACOP reports without reported hectare data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.5 Supply of Fresh Fruit Bunches (FFB)

2.5.2 In addition to FFB produced by your company's estates, does your supply base include any of the following?

- ☐ Scheme Smallholders
- ☐ Independent Smallholders
- ☐ Outgrowers
- ☒ Other Third-Party Suppliers

2.5.6 Other Third-party supplier operations that supply your operations:

2.5.6.1 Total FFB volume supplied by third-party suppliers (tonnes)

6. GHG Footprint

6.1 Has your company started quantifying its GHG emissions and monitoring?

No

6.1.2 No. Please explain why your company has yet to start GHG emissions tracking and monitoring

Our company has yet to start GHG emission tracking and monitoring due to limited technical capacity and resources at the current stage. However, we recognize the importance of addressing climate-related impacts and are in the process of developing a plan to establish a GHG tracking system.

In the short term (within the next 6–12 months), we aim to:

Build internal awareness and knowledge through staff training and stakeholder engagement on GHG emissions.

Identify suitable methodologies and tools for tracking and quantifying emissions, including aligning with RSPO and ISO 14064 standards.

Assess current operations and data availability to determine the scope and boundaries for GHG tracking.

In the medium term (12–24 months), we plan to:

Begin formal monitoring and recording of GHG emissions.

Set reduction targets aligned with our sustainability goals.

Explore partnerships or consultancy support to ensure accurate and consistent reporting.

We are committed to implementing GHG emission tracking as part of our broader sustainability strategy and to support transparency and continuous improvement.

6.2.1 What is the average GHG emissions by hectare (tCO₂e/ha) for all certified management units in this reporting year?

0.0

6.2.2 What is the average GHG emissions per tonne of crude palm oil (tCO₂e/tCPO) for all certified management units in this reporting year?

0.0

6.3 What are the key emission sources identified by your company in certified management units?

- ☒ Land use change
- ☐ Existing cultivation peatland
- ☐ Palm oil mill effluent (POME)
- ☐ Fertiliser application
- ☐ Others

-

6.4.1 Does your company have a long-term target?

Yes

6.4.1.1 Yes. Kindly provide your company target(s).

6.4.2 What is your baseline year for setting the target?

2030

6.4.3 What is your target baseline (average tCO₂e/tCPO)?

10.00

6.5 Does your company have an annual GHG emissions reduction/minimising target?

No

6.5_No No, identify the reason(s) :

Yes, our company has set a long-term target to achieve sustainability in all areas of our operations. We aim to reduce our GHG emissions by 10% by 2030, transition to renewable energy sources, and ensure responsible sourcing of raw materials. Our long-term goal is to align with international sustainability standards such as the SDGs (Sustainable Development Goals) and RSPO (Roundtable on Sustainable Palm Oil).

7. Support for Oil Palm Smallholders

7.1 How is your company supporting Independent Smallholder groups?

- ☐ Sourcing of physical FFB
- ☒ Financial support
- ☐ Operations support
- ☒ Training support
- ☐ Community development
- ☐ Not supporting Independent Smallholder groups
- ☐ Others

Others

-

7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is not mandatory, and is left to the discretion of the RSPO member to answer.

Our company currently supports a group of independent oil palm smallholders located near our processing facility. These farmers are not organized under specific groups but are provided with ongoing support, including:

Training on sustainable farming practices

Technical assistance on improving yields and quality

Access to markets for selling their fresh fruit bunches (FFB)

Guidance on achieving RSPO certification

We are committed to helping these smallholders improve their farming practices, increase their incomes, and contribute to the sustainability goals of our supply chain.

8. Actions For Next Reporting Period

8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

In the coming year, our company will focus on the following activities to advance its certification efforts:

RSPO Certification for Independent Smallholders:

Provide training and technical assistance to independent smallholders to help them meet the sustainability criteria for RSPO certification.

Support smallholders in the documentation and traceability process to ensure compliance with RSPO standards.

Enhancing Internal Monitoring Systems:

Implement improved data collection and monitoring systems for better tracking of sustainability metrics, including GHG emissions, water usage, and waste management.

Ensure all certified management units meet or exceed the necessary standards for RSPO certification.

Supply Chain Traceability:

Strengthen the traceability of palm oil from our operations to ensure full transparency and compliance with RSPO and other sustainability certifications.

Collaborate with suppliers to enhance the traceability system, ensuring that all sourced palm oil complies with sustainable practices.

Capacity Building and Stakeholder Engagement:

Organize workshops and awareness programs to educate our staff and stakeholders about RSPO certification requirements and the importance of sustainability.

Engage with local communities and stakeholders to ensure that their needs and concerns are addressed, fostering positive relationships and shared sustainability goals.

Review and Update Sustainability Policies:

Conduct a review of our current sustainability policies to ensure alignment with the latest RSPO guidelines and international best practices.

Set specific targets for further reducing environmental impacts, such as GHG emissions, and improving social outcomes.

By focusing on these key activities, we aim to strengthen our certification process and ensure that our operations contribute positively to sustainability goals.

8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

In the coming year, our company will undertake the following activities to promote the uptake of CSPO (Certified Sustainable Palm Oil) along the supply chain:

Supplier Engagement and Education:

Organize workshops and training sessions for our suppliers to raise awareness about the benefits of CSPO and the process of becoming RSPO certified.

Provide resources and support to suppliers on the steps to achieve CSPO certification, including assistance with documentation, traceability, and sustainability practices.

Incentivizing Certified Palm Oil Sourcing:

Prioritize sourcing CSPO-certified palm oil across all business units and offer incentives for suppliers who demonstrate a commitment to sustainability.

Work closely with both existing and new suppliers to transition their operations to meet the RSPO standards, encouraging them to adopt CSPO certification.

Building Partnerships with Certification Bodies:

broader adoption of sustainable practices.

Promoting CSPO to Customers:

Launch marketing campaigns to highlight our commitment to CSPO and sustainable sourcing, encouraging our customers to choose products made with certified sustainable palm oil.

Work with retailers and other industry partners to increase awareness about CSPO and its positive impact on sustainability.

Monitoring and Reporting:

Regularly assess and monitor the progress of our supply chain in adopting CSPO and provide transparency in reporting on the volumes of certified palm oil sourced.

Establish clear targets for CSPO uptake and track progress in achieving them across all supply chain tiers.

Strengthening Internal Policies:

Review and update internal procurement policies to ensure that only CSPO-certified palm oil is sourced for all company operations.

Set long-term goals for increasing the percentage of CSPO in our supply chain, ensuring that sustainability remains a key focus in future sourcing decisions.

By implementing these activities, we aim to significantly increase the uptake of CSPO throughout our supply chain, ensuring that all our operations contribute to the long-term sustainability of the palm oil industry.

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

Our company and its associated entities manage both certified and uncertified operations that use palm oil, palm kernel oil, and related products. Below are the details of the operations:

Certified Operations:

Palm Oil Mills:

Name: New Biodiesel Palm Oil Mill

Location: Surat Thani Province, Thailand

Certification: RSPO Certified

Products Produced: Crude Palm Oil (CPO), Palm Kernel Oil (PKO)

Certification Status: Fully certified, producing CSPO and CSPK products.

Palm Oil Refining Facilities:

Name: New Biodiesel Refinery

Location: Surat Thani Province, Thailand

Products Produced: Refined Palm Oil, Palm Kernel Oil, and Derivatives (e.g., Palm Fatty Acids, Glycerin)

Certification Status: RSPO Certified

Uncertified Operations:

Oil Palm Plantations:

Name: [Name of Plantation]

Location: [Location of Plantation]

Products Produced: Fresh Fruit Bunches (FFB)

Certification Status: Uncertified, with plans to initiate certification in the near future.

Other Palm Oil Mills or Refining Facilities:

Name: [Other Palm Oil Mill or Refinery Name]

Location: [Location of Other Facility]

Certification Status: Uncertified, in the process of working towards RSPO certification.

Supporting Independent Smallholders:

Our company supports a number of independent smallholders, both certified and uncertified, through training and assistance aimed at improving sustainability practices, and we are working towards certifying their operations as well.

Please note that we are committed to expanding our certified operations and transitioning all relevant uncertified operations towards RSPO certification in the coming years.

2.1.1 In which markets do you sell goods with palm oil and palm oil-related products?

India

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Total volume of RSPO-certified (IP, MB, SG and RSPO Credits/Book and Claim) and Non RSPO-certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes
Crude palm oil, including derivatives refined from CPO (tonnes)	0.00
Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	0.00
Crude palm kernel expeller (tonnes)	0.00
Total	0.00

2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

Description	Crude Palm Oil (CSPO) and CSPO Derivatives	Crude Palm Kernel Oil (CSPKO) and CSPKO Derivatives	Palm Kernel Expeller (CSPKE)
RSPO Credits from Mill / Crusher	0.00	0.00	0.00
RSPO Credits from Independent Smallholder	0.00	0.00	0.00
Mass Balance (MB)	0.00	0.00	0.00
Segregated (SG)	0.00	0.00	0.00
Identity Preserved (IP)	0.00	0.00	0.00
Total	0.00	0.00	0.00

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

0

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

The uptake of certified palm oil, palm kernel oil, and related products as reported in PT.2.4 was influenced by several factors during the reporting period. These include:

Business Environment Changes:

Fluctuations in global market demand and pricing impacted our purchasing volume and sourcing strategy for certified products.

Operational Adjustments:

Changes in production planning and processing schedules resulted in variation in the volume of certified raw materials required.

Stock Positions:

Inventory levels from the previous period were utilized, which reduced the need for new certified purchases during the current reporting cycle.

We remain committed to sourcing certified sustainable palm oil products and will continue to align our procurement with RSPO principles as our operations evolve.

3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?

2018

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2026

3.2.1 If the previous target year has not been met, please explain why.

The previous target year was not met due to a combination of internal and external factors. These include delays in audit scheduling, operational adjustments within the company, and disruptions in the supply chain caused by market fluctuations. Additionally, aligning our sourcing practices with RSPO requirements required more time than initially anticipated. We are actively working towards achieving compliance and expect to complete the process within the revised timeline.

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2018

3.3.1 If the previous target year has not been met, please explain why.

-Due to supply limitations, we now expect to achieve this by 2027."

3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2035

3.4.1 If target has not been met, please explain why.

Due to supply limitations, we now expect to achieve this by 2035

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

The TimeBound Plan commitments do not cover all countries in which our company operates because the specific commitments outlined above are not relevant to certain markets due to local regulations, operational scope, or market conditions. In these countries, the company is working on alternative approaches that align with our sustainability goals but are not yet incorporated into the TimeBound Plan.

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- ☐ Participation in RSPO Working Group or Task Forces
- ☐ Support Independent Smallholders (ISH)
- ☒ Contribute to the RSPO Smallholder Trainer Academy
- ☐ Financial contribution to the RSPO Smallholder Support Fund
- ☐ Direct investments in Smallholder Certification projects
- ☐ Involvement/direct investments in Jurisdictional/Landscape approach
- ☐ Direct/collective investments in conservation and restoration initiatives
- ☐ Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives
- ☐ Allocating FTE to promote the production or consumption of certified sustainable oil palm products
- ☐ Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts
- ☐ No activities planned
- ☐ Others

Other

-

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- ☐ Awareness of RSPO in the market
- ☐ Difficulties in the certification process
- ☐ Certification of smallholders
- ☒ Competition with non-RSPO members
- ☐ High costs in achieving or adhering to certification
- ☐ Human rights issues
- ☐ Insufficient demand for RSPO-certified palm oil
- ☐ Low usage of palm oil
- ☐ Reputation of palm oil in the market
- ☐ Reputation of RSPO in the market
- ☐ Supply issues
- ☐ Traceability issues
- ☐ No challenges faced
- ☐ Others

Others

-

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- ☐ Communication and/or engagement to transform the negative perception of palm oil
- ☐ Engagement with business partners or consumers on the use of CSPO
- ☐ Engagement with government agencies
- ☐ Engagement with peers and clients
- ☐ Promotion of CSPO through off product claims
- ☐ Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- ☐ Promotion of physical CSPO
- ☐ Providing funding or support for CSPO development efforts
- ☐ Research & Development support
- ☐ Stakeholder engagement
- ☐ No actions taken
- ☒ Others

Others

In addition to the actions already outlined in this ACOP report, our company has taken several other steps to support the vision of the RSPO and help transform markets to make sustainable palm oil the norm:

Advocacy and Industry Collaboration: We actively participate in industry conferences, workshops, and forums where we advocate for the widespread adoption of sustainable palm oil. By collaborating with other stakeholders, including NGOs, government bodies, and industry peers, we work to create a unified approach to sustainability in the palm oil sector.

Engagement with Smallholders: Our company has partnered with smallholder groups to provide them with the resources and training they need to transition to sustainable practices. This includes offering technical support, access to finance, and helping them achieve RSPO certification.

Partnership with Retailers: We are working closely with retailers to increase the availability of certified sustainable palm oil products on the market. Through these partnerships, we encourage them to prioritize sourcing products made with CSPO, helping to create consumer demand for sustainable options.

Internal Sustainability Initiatives: Beyond our supply chain, we have integrated sustainability principles into our own
