3.4.1 If target has not been met, please explain why.

It's quite a big distance to cover from 30% to 100% but considering our company's dynamics we are confident that we can reach this target. Besides, market leads the change and the penetration of RSPO CSPO products. Right now, and especially for Greece the demand is relatively slow but keeps increasing all these years. We believe that EUDR will be a critical turning point regarding the RSPO CSPO trade. The only thing that remains to be seen is if and how the RSPO organization will push and lead the developments regarding the implementation and integration of its activities with the demands of upcoming EUDR.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why
