**Are there any RaCP?**

| YES ☑ | NO ☒ (This is required to check if there are any liabilities) |

**RaCP Status**

If Yes, To check with RSPO

---

**Brief information about Applicant**

Entrepalmas S.A.S is a company dedicated to the extraction of crude palm oil with a capacity of 38 tons/h, it is a sequential process in which each of its stages can be easily identified. Once the fruit is harvested in the field, it is transported to the extractor for immediate processing, thus avoiding acidification of the fruit. • The fruit is received on a scale where its weight, variety origin, among other data that allow the traceability and classification of the raw material are recorded, it is subsequently directed to the hoppers or storage according to the information provided, and is downloaded there for subsequent processing. • Once the FFB is in a hopper or stockpile, it is distributed into wagons according to the capacity of the sterilizer. Each wagon in Entre Palmas has a capacity of 6.5 t. When there are enough wagons, they are routed for cooking in the area. sterilization. • Sterilization is a process in which the fruit is exposed to pressure and temperature conditions achieved by means of saturated steam seeking to meet the following objectives: • first soften the mesocarp which is the external or fleshy part of the fruit to achieve adequate maceration in the digestion process.

Control Union Malaysia Sdn Bhd is a member of the Control Union - an international inspection and certification body. CUC performs assessments and certification in many agricultural based fields such as FSC, RSPO, and Organic production, Sustainable Textile Production, Organic Exchange, GLOBALGAP, HACCP, BRC, GMP. Control Union Malaysia Sdn Bhd is accredited for RSPO (RSPO-ACC-021) for the scope of P&C (Single Site & Group) and SCCS worldwide. When requested, a copy of the accreditation certificate can be obtained from CUC.

Stakeholder consultation is one of the most important parts in certification process; during which relevant national, regional as well as local stakeholders are asked to give their views and opinions as to whether the applicant’s certification units comply with the requirements of the applicable National Interpretation.

We invite all stakeholders to take part in this consultation procedure as you can make a positive contribution to the certification decision. We ask you to raise any issues, both positive and negative, by sending a written response by mail, fax or by E-mail to our Control Union Malaysia Sdn Bhd office as indicated below.

For your guidance, you may consider the following points:
- Environmental protection.
- Biodiversity conservation.
- Opportunities for employment.
- Provision of housing, sanitation, amenities and educational support.
- Company approach to community development.
- Participation in decision making.
- Any other issue, both positive and negative that you consider may be of relevance to the assessment.
- Issues relating to other plantations owned by the company not included in this assessment.
- A copy of the applicable RSPO standard for the country, in which the assessment is being conducted, is available from www.rspo.org. Alternatively please ask Control Union Malaysia Sdn Bhd for a copy.

Your responses will be dealt with in complete confidentiality and will only be distributed to the appropriate persons within the organizations of CUC, ASI and RSPO.

When required your reply will remain confidential. Please add “Confidential” in your response and when preferred your response can be added as anonymous in the public summary of the report. In that case please also add “Anonymous” in your response.

If requested by you, the audit team will make the necessary arrangements to allow you to meet with them during the evaluation.
Please direct your comments to:
