[Organisation name] is proud to be a part of a global partnership to make palm oil sustainable.

For 20 years, the Roundtable on Sustainable Palm Oil has come together to transform the global palm oil sector, inspired by our shared vision of a sustainable industry that benefits people, safeguards the planet, and promotes prosperity for rural communities worldwide.

We’re celebrating the significant milestones of the past two decades – from conserving over 360,000 hectares to date under RSPO Principles and Criteria Certification, to remediating over 100,000 hectares of land, and improving the lives of over half a million workers in the global palm oil industry under RSPO certification system.

Committed to stronger partnerships, we look forward to building on our progress, and driving a more sustainable future.

We’re looking beyond the horizon, and towards the Next 20.

This April, we celebrate a 20-year legacy that we are proud to be a part of. RSPO Members are united by a shared mission to significantly transform the palm oil industry from seed to shelf, by ensuring that palm oil is produced sustainably, in ways that protect our precious natural resources and wildlife, improve the livelihoods of small farmers, and promote the development of rural communities worldwide.

Committed to stronger partnerships, we look forward to building on our progress and driving a more sustainable future in the Next 20.

As a proud member of the Roundtable on Sustainable Palm Oil (RSPO), [organisation name] joins nearly 6,000 Members from across the global value chain to make the production and consumption of palm oil sustainable through stringent Standards.

The RSPO Standards have prohibited the conversion of primary forests since 2005 and prohibited any deforestation (based on High Conservation Value and High Carbon Stock assessments of forests and high carbon environments) since 15 November 2018. By becoming an RSPO Member, we are committing to building a greener palm oil supply chain.
